1 888-U AIRDYE

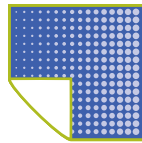

AIRDYE® PRODUCT LINE

The following products are manufactured in a single production step without using water.

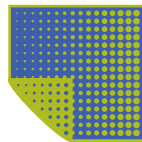

AirDye® Solids

AirDye technology that dyes fabric a single color.

AirDye® Singles

AirDye technology that prints one side of fabric while leaving the other side undyed.

AirDye® Wovens

AirDye technology that simulates dyed woven jacquard and dobby weave.

AirDye® Contrast

AirDye technology that dyes opposite sides of fabric two different colors.

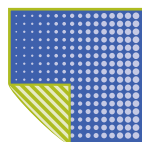

Print-to-Solid

AirDye technology that prints one side of fabric and dyes the other.

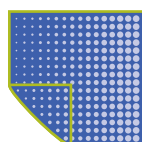

AirDye® Imprints

AirDye technology that dyes or prints an image or logo on fabric. Imprints can be printed during the dye process in a single step.

Print-Contrast

AirDye technology that prints opposite sides of fabric with different designs.

Print-Squared

AirDye technology that prints opposite sides of fabric with the same design.
